

Name:

## Evolutionary Trees

Look at the animals and discuss which ones are more closely related. Then as a class create an evolutionary tree. Make sure you draw an arrow to show the direction of time! Also add circles to show where the common ancestors are found.

## Evolutionary Trees

Look at the animals and discuss which ones are more closely related. Then as a class create an evolutionary tree. Make sure you draw an arrow to show the direction of time! Also add circles to show where the common ancestors are found.
